

## EPS 2.2 (SAH2200) Hovercraft business for sale

**Rockledge Marine Services LLC** is pleased to assist EPS Corporation in offering a unique opportunity to purchase their EPS-2.2 (formally the Slingsby SAH2200) Hovercraft business. The sale of the business includes all design, engineering, marketing and intellectual property rights for this well-proven amphibian along with any and all paper and software drawings, documents, manuals, photos and data. The sale also includes the EPS demonstrator vessel as pictured here.

The Slingsby SAH2200 Hovercraft is one of the world's most successful hovercraft models with over 30 vessels built and supplied to various organizations around the world for a variety of roles. Able to carry 4,840lb (2,200kg) of load and sized to carry up to 22 people, the manufacture of this fully amphibious composite vessel can be implemented at any competent composite production facility.

This well-proven amphibian can be operated over almost any terrain and is ideal for passenger and crew transfer services, water-taxi, search & rescue, hydrographic survey, fire department duties and fisheries and coast guard patrol.

The demonstrator craft has recently undergone a complete refit with a reconditioned engine, new skirt, transmission system and an updated navigation and communications package. She is supplied with a full Lloyds Register class certificate for coastal waters up to 20 miles from refuge.

- Proven design with thousands of driving hours and experience.
- Simple design for ease of manufacture, operation and maintenance.
- Robust FRP composite construction.
- Easy to replace skirt segments.
- Comprehensive operating and maintenance manuals.
